Another such plant in the private sector has recently started com mercial production at Gadepan (Rajas than). Besides, National Fertilizers Limited (NFL) and Indian Farmers Fertilizers Cooperative Limited (IFFCO) have taken up projects for doubling of the capacity of their gas-based plants at Vijaipur (M.P.) and Aonla (U.P.), res-pectively. Revamping of plants of Mad ras Fertilizers Limited will also increase its fertilizer production capacity. Gas availability has also been indicated in Krishna-Godavari Basin (A.P.) for a medium size ammonia-urea plant.

Bulk drugs for national health Programme

3010. SHRI RAJNI RANJAN SAHU: Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

(a) what are the names of the bulk drugs required for National Health Programmes;

(b) what was the production of each drug, company-wise during the last three years, yearwise;

(c) whether several companies have discontinued and reduced the production in these drugs and if so, what are the reasons for the same; and

(d) what are the special incentives that have been given to those who are engaged in the production of these drugs?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI EDUARDO FAL-EIRO): (a) The list of price controlled bulk drugs which are required for National Health Programme as contained in Schedule-1 of DPCO-87 is attached in the Statement annexed.

(b) and (c) The production of drugs in the country is satisfactory in general, and adequate to meet the local requirements. Fall in production in individual cases is due to various reasons like intro-duction of therapeutically equivalent new drugs, drug obsolescence etc.

(d) The 21 bulk drugs required for use in National Health Programme which are under price control under DPCO-87 and the formulations based thereon, are exempt from excise duty.
